SUSTAINING THE TRANSFORMING ARMY . . .

JOINT LOGISTICS CONFERENCE

. . . TRANSFORMING THE SUSTAINING ARMY

It Won't Happen Without YO

TOPICS

- OIF: What went well?
- OIF: What hurt?
- The Future?
- The Program?

OIF- WHAT WENT WELL?

- Individual Performance
- Army Pre-positioned Stocks:
  - *Class VII*
- Bulk POL
- Co-location of Log C2
- Strategic Partners Forw
- Army Power Projection Platforms
- Theater Support Vessel

OIF- WHAT HURT?

- Equipping our Soldiers
- Ability to "See"

Requirements

- Contracting Under

- Distribution (w / In-Transit Visibility)
- Army Pre-positioned Stocks:

Sustainment

INSIGHTS FOR THE FUTURE

- **A Changed Battlefield**
  - Widely Dispersed
  - Decentralized Execution
  - Rapid Reorganization
  - Threat to Lines of Communication
  - Joint and Combined

Expectations Have Changed

lexible – Responsive - Adaptable

- **Imperatives**
  - See, in "Near Real Time," Requirements Across Battlefield
  - Distribution System that is Fast & Precise

- **Future Concepts**
  - Highest Reliability We Can Afford (Key Performance Parameters)
  - Use New Technology to Reduce Requirements

Diagnostics/ Prognostics

Fuel Cells

Common Components

Advanced Wireless Technologies

G-4 FOCUS

- "CONNECT" OUR LOGISTICIANS
- MODERNIZE THEATER DISTRIBUTION

FIX THE CURRENT FORCE

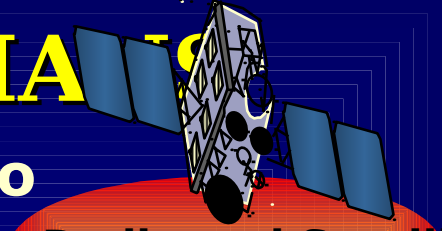
CRITICAL TO SUCCESS

- Our Commitment
- Joint Integration
- Policy Modernization
- Refined Doctrine
- New Force Structure
- Standard Sustainment

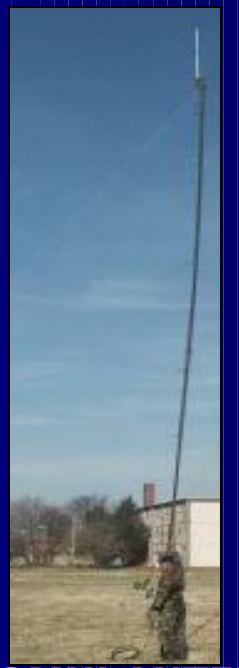
- IMPROVE FORCE RECEPTION
- INTEGRATE THE SUPPLY CHAIN

"CONNECT" OUR LOGISTICIA[illegible]S

- Agile, Assured, 24 / 7 Data Capability into the Enterprise
  - ✓ A Log Network For Log Data
  - ✓ ERP (Enterprise Resource Planning)
  - ✓ VSAT (Very Small Aperture Terminal), CAISI (Combat-Service Support Automated Information System Interface), & RFID (Radio Frequency Identification) w/ every SARSS (Standard Army Retail Supply System) Site
  - ✓ Collapse the Materiel Management Center Structure
  - ✓ Co-locate Log Command and Control
  - ✓ Joint and Combined Coordination



Dedicated Satell



CAISI OMNI ANTEN

- Plug / Un-plug as Required
- Include Logistics, Personnel, Medical & Engineer *(Operational Sustainment)*

Enable "Sense and Respond" Logistics

MODERNIZE THEATER DISTRIBUTION

- Single Proponent
- Enable Control With 100% Visibilit
  - ✓ Total Asset Visibility / In-transit Visibil From Factory to Foxhole
  - ✓ Flexible and Responsive Distribution S
  - ✓ Rapid, Precise Delivery
- Single Doctrine, Single Structure, Single Info System
  - ✓ Strategic Integration (TRANSCOM =

"See" Requirements

Structure to Support Rapidly Changing Task Organizations

IMPROVE FORCE RECEPTION

- Aerial / Sea Ports Of Debark
  - ✓ Distribution
  - ✓ Life Support
- Strategic Connectivity
  - ✓ Theater Log C2 Node
- Embedded Sustainment Capability
  - ✓ Theater Opening Package vs Port Opening Package
  - ✓ Force Provider
  - ✓ Connectivity
- Life Support – Division in 5 Days
  - ✓ No Contractors First 30 Days … Better Solution?

"The First 15 Days"

INTEGRATE THE SUPPLY CHAIN

- Single Proponent

"See" the Requirement

- ✓ Role of Strategic Partners

- ✓ ASL (Authorized Stockage List)/ PLL (Prescribed Load Listing) Modernization
- ✓ Modernize Production and Distribution
- ✓ Supply Support Activity Afloat

Eliminate Stovepipe Suboptimization
